CASE STUDY

Making Installation a Snap!

The Problem

In 2021, A newly-constructed retail store had a punch list of projects that needed to be completed, including the front porch trim, but had precious little time remaining before grand opening. How could they save time and have everything ready by opening day?

The Solution

Existing support beams were up, but they needed to be covered. Column wraps historically took much time to be fully trimmed out, and there were other important punch list items to be done before the store invited its customers in for the big day the following week. They found out about and chose Snap-Tite™ PVC Columns from Superior as a time-saving alternative.

Unlike other PVC Wrap Around Column solutions, Superior's Snap-Tite™ Columns' patented design required no cutting, mitering, gluing, or bungying. This saved the installation team an average of more than 30 minutes per column assembled compared to traditional PVC Wrap-Around Column solutions. Added up over the 7 columns installed, over 4 hours of labor were saved by the contractor.

The Result

In part due to the time saved by installing Superior's Snap-Tite™ PVC Wrap-Around Columns, the store was able to successfully complete all their major projects before grand opening.

Before (Top) and After (Bottom)
Addition of PVC Snap-Tite™

Average Assembly Time
Per Column

■ Snap-Tite PVC Columns ■ Regular PVC Columns

Snap-Tite™ PVC Column Wrap

The **ONLY** PVC Column Wrap that requires **No** PVC glue or adhesive to assemble. No need to wait hours or days for glue to dry. Simply snap together for the perfect column!

**NO
PVC Glue!!**

- Patented design for quick assembly
- Wood and Smooth Designs available
- Paintable surfaces for unlimited customization
- Uses cellular PVC to ensure longevity
- Matches home's exterior trim for a modern, uniform look

Square, Fluted, & Panel PVC Column Wraps*

- Variety of sizes and designs
- Paintable surfaces for unlimited customization
- Uses cellular PVC to ensure longevity
- Matches exterior trim for a modern, uniform look

Now that's a wrap! Cover up any unsightly existing support beams with a Square, Fluted, or Panel PVC column wrap to brighten up any entrance or area!

*Please note that standard Square & Panel PVC Columns (non-Snap-Tite™) require PVC Glue for assembly

Craftsman PVC Column Wraps

- Variety of sizes and designs
- Paintable surfaces for unlimited customization
- Uses cellular PVC to ensure longevity
- Matches exterior trim for a modern, uniform look

Make a statement with a Craftsman PVC Column Wrap! With a variety of sizes available, full customization is just a wrap away!

*please note that Craftsman PVC Columns require PVC Glue
