

# Ornamental Aluminum Privacy

## Privacy is available for aluminum fence.

Allegheny Fence offers two different types of products.

### Louver Privacy

This product locks around each picket. No screws are required. Louver privacy has a very unique feature. The privacy panels can pivot to an open position if desired. Simply pivot the panels open or closed at your convenience. Louvers will install on 1/2", 5/8", 3/4", or 1" pickets. Available Black Only.

Open Position

Closed Position

### Windscreen

Windscreen is a solid vinyl fabric that attaches to an aluminum fence through factory installed grommets with zip ties. The screen is available in several colors, however, has black stitching when the product is produced. Screening is custom made to height and length required.

These high quality vinyl coated polyester products are made for jobs requiring a broader range of colors, and total opacity. These fabrics provide the best in appearance for screening applications like tennis covers and windscreen dividers, café curtains, canopies and privacy screens. This is a custom made product so all sizes are available. The opacity of the mesh is 80% and the solid is 100%. Hems and grommets all around 2" on center. [Seam covers](#) are available.

Fabric	Weight	Tensile Strength		Denier
		Warp	Fill	
Vinyl Solid	14.0 oz/yd <sup>2</sup>	350 lbs	300 lbs	1000
Vinyl Mesh	9.0 oz/yd <sup>2</sup>	375 lbs	350 lbs	1000

Material:

P.V.C. Solid

Colors:

**IMPORTANT NOTICE:** When privacy is added to a fence, high wind conditions could result in the fence being damaged. Increasing the wall thickness or diameter of your posts may decrease this risk.
